Content Calendar Template — GreenTrail

Purpose: Fictional training reference for the Social Media Strategist Gem.

Campaign Details

- Brand: GreenTrail
- Product: TrailSip Insulated Bottle
- Platform: Instagram
- Campaign: New product launch
- Goal: Introduce the product and encourage audience engagement.
- Schedule: Three posts during the launch week.

Post 1 — Product Teaser

Suggested timing: Early in the week

Objective: Build curiosity about the new product.

Content direction: Introduce the idea of a new reusable hydration companion without inventing product features.

CTA direction: Invite followers to watch for the launch.

Visual suggestion: A simple teaser graphic featuring the product name.

Post 2 — Launch Announcement

Suggested timing: Midweek

Objective: Introduce the TrailSip Insulated Bottle.

Content direction: Announce the product using only the approved product information.

CTA direction: Invite followers to learn more or leave a question.

Visual suggestion: A product introduction graphic. Use an actual product photograph only if one is available.

Post 3 — Everyday Hydration

Suggested timing: Later in the week

Objective: Connect the launch to everyday routines.

Content direction: Discuss bringing a reusable bottle to work, class, on a commute, or on a walk. Do not claim unverified product performance.

CTA direction: Ask followers where they would take their reusable bottle.

Visual suggestion: A lifestyle-style image concept showing an everyday routine.

Required Calendar Fields

For every post, include:

1. Proposed date or relative timing.
2. Content objective.
3. Instagram caption.
4. Call to action (CTA).
5. Hashtags.
6. Suggested visual.

Publishing Rules

- Follow the Brand Voice Guide.
- Keep the three posts distinct.
- Use only approved product facts.
- Treat dates as proposed until the actual campaign week is confirmed.
- Do not claim that posts have been scheduled or published.
- Obtain human approval before publishing.

Note: This is a fictional planning template for training purposes, not a real publishing schedule.
